

What I do when I write:

Marcel Ray Duriez

Fast video-

You asked a video- on how I write; well it is just like this, there was no true plan and there was no understanding to me at the time that I wanted to go for the record in writing this long novel. I was just making a novel, and then another, and I have not stopped... I wanted to see what would become of this book if I took some time to plot and I did, and then I started to edit- and edit, then edit more, I edited for over 6 years of my life.

When I start I had known the idea of writing at all, where to start, at the time I still ask if I am a good writer, that I am not sure of, yet I have a dream, to do amazing, and I well in time.

Now, let the editor fix my stupid, I love what this has done for me, as you could see I am a fast writer and have read a lot of my story of time yet- as you could think I need to have more eyes on this than just mine and

I have used Grammarly to edit, along with readers looking over everything, as you understand that I would.

All my books have above a 90+ in Grammarly.

So I make a fast list about a chapter, I at times have quotes come into my head at the strangest times, and I pen them down fast, then come home and I do a 1,000 words a day and a part that up into 500 or so at a time. Plots I have one protagonist in this book throughout, Nevaeh- I find myself looking for a hero in this world for myself and young teens, and I feel that all teen girls will love reading about this 14-year-olds life, and her long story of hope and struggles.

Now as you can see there was no plain in making this document, I start a book and have no plains on where it's going to go, to write a lot of books you have to read a lot of books.

Yet, this is live- and I know that someone looking at me doing this is going to slow me down.

Chapter: 1

Thus, I start something, like I was standing outside in the rain, and see what I could do next- to have something I know that I have read before yet new to be in the now and liked by readers.

Sometimes, it can be a pain in the butt to get right, why? I don't know, and like- you have to see if you can get it to work for you.

~\*~

...?...

I would like to say that for someone that has taken so-o much time to do this record, I really do not know what to say about writing all this down.

It takes many hours, long nights- 'even being a little mad,' and some have called me that- he- he.

There you go GWR, I feel you have a little understanding of my world of writing.

At that point, you just download the copy and make a file then place it in to the publisher's requirements.

Like I have said, I do not say that I am good at what I do, yet I feel that I have made a masterpiece, with all the books I have penned.
